I, _____, declare that, I am a registered property owner in the Town of Creston. I have installed a CSA approved ultra high efficiency toilet(s) in my home or business.

I have read and understood the terms of the program and understand the Town of Creston is not responsible for the installation or function of the toilet. This rebate offer may be withdrawn without notice.

The Town of Creston reserves the right to inspect or verify that toilets have been installed. Rebates shall be repaid to the Town should the purchaser return the toilet for cash/credit refund or exchange for an ineligible toilet.

Why should I replace my large volume toilet?

Toilets use the highest amount of water and account for approximately 30% to 40% of household water use. Installation of an ultra high-efficiency toilet (ultra HET), with a flush volume of 4.8 litres, can save about 80 to 100 litres of water per day.

Toilet rebate program

The toilet rebate program is a part of the Water Smart Initiative to reduce water consumption 20% by 2015.

This program provides a financial incentive for you to replace your old low efficiency (6 or more litres) toilet with an ultra high efficiency toilet with a flush volume of 4.8 litres. Please note, this rebate does not apply to toilets being installed as part of additions or new construction.

This program offers 100, \$50 rebates, available on a first come, first serve basis. Submitting an application does not guarantee a rebate. It is your responsibility to fully complete the application and to ensure you meet all program requirements.

**Ultra Low Flush Toilets
can reduce water
consumption by 20%**

To receive the rebate, complete the following steps.

● Step 1: To qualify you must:

- Be a resident/business and be receiving a utility bill from the Town of Creston
- New toilet must not have been purchased before July 2012.
- Have a low efficiency toilet in excess of 6 litres or greater flush volume

Determining flush volume

Look for the stamp on your toilet to determine the flush volume. Location of stamp can be on the inside or the rear of the tank; on the tank label, located on the top of the bowl; or on the flush valve.

● Step 2: Purchase and install your new toilet/s

Only new fixtures are eligible for the rebate program. These toilets must be ultra low flush toilets with a flush volume of 4.8 litres. Please note, Dual flush toilets are classified as ultra HETs, because the average flush volume is less than 4.8 litres.

The replacement toilet/s must be CSA approved. Look for this

The new toilet must have a Maximum Allowable Performance (MaP) rating of 350 or higher. For ratings of popular toilet models, please visit:

http://cwwa.ca/pdf_files/WaterSense-HETs-June-2009.pdf

● STEP 3: Disposal of your old toilet

Take your old toilet to the public works building located at 600 Helen Street during business hours, Monday to Friday from 7:00 am to 3:30 pm. Please call, 250-428-2015, in advance to ensure that someone will be available to help you. The public works employee who receives the toilet must sign your application form.

● STEP 4: Submit your application

Complete your application and bring it into the Town Hall. Applications must include the following:

- Completed application form
- Signature from Public works employee that received your old toilet
- Receipt for purchase of your new toilet
