CRESTON VALLEY

## Why should I compost?

Composting reduces the amount of waste each of us sends to the landfill. In fact, up to 30% of the material we send to landfill is organic and could be composted at home. Composting has other benefits too. Applying finished compost returns nutrients to the land, holds moisture in gardens and on lawns, contributes to watershed health by controlling run-off, naturally fertilizing and provides structure to the soil.

## Compost bin program

The compost bin rebate program is a part of the Town of Creston's organic waste reduction program aimed at reducing curb side waste.

The program provides a financial incentive for you to purchase a commercially available compost bin.

**This program offers 200, \$25 rebates,** available on a first come, first serve basis; one rebate per residence.

Submitting an application does not guarantee a rebate. It is your responsibility to fully complete the application and to ensure you meet the program requirements. Only one rebate per property.

## To receive the rebate, Complete the following steps:

### ● Step 1: To qualify you must:

- Be a resident and be receiving a utility bill from the Town of Creston
- Live in an existing single family dwelling, multi-family dwelling or mobile home each with yard space
- Compost bins must not have been purchased before July 2014

### ● Step 2: Purchase and install your new compost bin

Only new commercially available compost bins are eligible for the rebate program.

### ● Step 3: Submit your application

Complete your application and bring it into the Town Hall. Applications must include the following:

- Completed application form
- Receipt for purchase of your new compost bin

**Compost Bins are available at:**  
Home Hardware
